

XXIII Canary Islands Winter School of Astrophysics

Secular Evolution of Galaxies

Puerto de la Cruz, Tenerife, Spain. 14th - 25th November 2011

ORGANIZING COMMITTEE

J. Falcón Barroso
J. H. Knapen
C. Esteban
F. Sánchez

Contact:

Ms. L. González Pérez
winter@iac.es

TOPICS AND LECTURERS

- Theory of Bars, Rings and Spirals

L. Athanassoula (OAMP, France)

- Galactic Dynamics

J. Binney (Oxford University, United Kingdom)

- Morphology of galaxies

R. Buta (University of Alabama, USA)

- Star Formation & Dust

D. Calzetti (University of Massachusetts, USA)

- Stellar Populations

R. F. Peletier (Kapteyn Astronomical Institute, The Netherlands)

- Observing Secular Evolution in Nearby Galaxies

J. Kormendy (University of Texas Austin, USA)

- Observing Secular Evolution in Distant Galaxies

N. Scoville (Caltech, USA)

- Cosmological Galaxy Evolution

I. Shlosman (University of Kentucky, USA)

- The Evolving Interstellar Medium

J. van Gorkom (Columbia University, USA)

<http://www.iac.es/winterschool/2011>

The application deadline is June 15, 2011
